# 서론

제1장은 본 연구의 개요로서 먼저 연구의 배경 및 필요성을 논의한다. 낙후지역에서 지역발전의 주요한 동력원인 기업투자가 상대적으로 저조하다는 점, 그리고 낙후지역 경제의 쇠퇴·침체, 인구감소, 고령화 등으로 인해 취약계층 및 그에 준하는 계층의 증가가 우려되어 해당 계층에 대한 배려가 요구된다는 점을 강조한다. 그러한 맥락에서 낙후지역 발전을 위한 지역기반 사회적기업 육성의 필요성과 지원방안에 관한 논의를 연구목적으로 설정한다.

## 사회적기업과 지역발전의 연계

제2장은 본 연구의 이론적 고찰로서 사회적기업과 지역발전의 연계에 초점을 맞춘다. 먼저 사회적기업의 지역발전 기여 가능성을 논의하고, 그러한 논의를 토대로 지역기반 사회적기업을 제시하여 개념적으로 정의한다. 그리고 낙후지역을 비롯한 지역의 발전과 사회적기업 간의 연계에 관한 선행연구를 고찰한다.

## 낙후지역 현황 및 변화 분석과 현행 낙후지역 발전정책 고찰

제3장은 우선 통계자료를 활용하여 우리나라 낙후지역의 현황 및 변화를 분석한다. 낙후지역을 조작적으로 정의하고, 낙후지역에서의 취약계층 및 기업투자를 나타낼 수 있는 지표를 활용한다. 그리고 현 정부 낙후지역 발전정책의 근간인 성장촉진지역 및 특수상황지역 개발을 고찰한다. 특히 성장촉진지역 및 특수상황지역 개발이 포괄하는 내역사업을 살펴봄으로써, 현행 낙후지역 발전정책의 특성과 문제점을 제시한다. 마지막으로 낙후지역 현황 및 변화 분석과 낙후지역 발전정책의 고찰을 토대로 낙후지역 발전을 위한 지역기반 사회적기업 육성의 필요성을 논의한다.

## 낙후지역에서의 지역기반 사회적기업 육성을 위한 지원방안

제4장은 먼저 낙후지역에서의 지역기반 사회적기업을 예시적으로 논의한다. 그런 다음에 낙후지역에서 지역기반 사회적기업을 육성하기 위한 지원방안을 논의한다. 지원방안에 관한 논의는 지역기반 사회적기업 요건을 충족하는 사업조직에 대한 지원과 그것을 위한 재원확보와 제도적 정비, 그리고 낙후지역 발전을 위한 지역기반 사회적기업 육성의 저변 확충에 초점을 맞춘다.

## SUMMARY

### Development of Depressed Areas via the Growth of Local Community-based Social Enterprises

Pillsung Byun & Youngmo Yoon

This study presents that growth of local community-based social enterprises(hereafter, LCSEs) is needed for the development of depressed areas in Korea, and it discusses how the LCSEs' growth should be supported in such areas. The study has the following three main parts.

First, our research undertakes the conceptualization of the LCSEs, which is based on a social enterprise's potential of contributing to local development. According to the conceptualization, the LCSEs are the social enterprises or small/medium-sized firms that not only care for disadvantaged people in various ways but also pursue the development of local communities. The LCSEs invest in and run their profit-making business projects by using local resources. Through such business projects and the resultant profits, the LCSE create jobs to the disadvantaged or non-disadvantaged residents in local communities, or provide social services to the residents for improving qualities of their lives. Additionally, we illustrates the LCSEs that could potentially operate their own business projects in depressed localities.

Second, this work examines the Korean government's development policy of disadvantaged areas, and it analyses the demographic/economic status and shifts in the depressed localities across Korea. Importantly, the examination and analysis puts emphasis on the need of the LCSEs' growth for proceeding the development of such disadvantaged areas. Concretely, our analysis finds that the business investment in the Korean depressed localities tends to become sluggish and the employment creation by the investment to the local economies could potentially be limited. Moreover, the depressed localities are likely faced with the increase in the disadvantaged residents suffering from old age or experiencing the underemployment/unemployment related to old age, in the vicious cycle among local economic downturn, slowdown in business investment, population decrease, and accelerated population aging. Given this situation, the disadvantaged areas likely have to confront such challenges as creation of employment opportunities and provision of social services. However, the Korean government's development policy of disadvantaged localities has the difficulties in effectively tackling the problematic situation and challenges to which such localities potentially are exposed.

Finally, this research discusses how the LCSEs' growth should be supported for the development of depressed areas in Korea. Our discussion has the two parts. One deals with the support for the business establishments or units that function as the LCSEs in disadvantaged areas, and the issues of financing the support and improving relevant institutions. The other concerns the expansion or reinforcement of the foundation on which the LCSEs' growth can effectively be sought in the Korean depressed localities. The foundation encompasses human resources, creation of market demand, channels of financial resources, business services, and other software infrastructure, all of which are needed for the growth of the LCSEs as firms.
